

# Certificate of Outstanding Performance

*Presented to*

## **Ricciardi Technologies, Inc.**

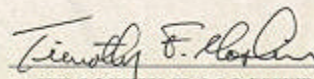

Ricciardi Technologies, Inc. (RTI) Software Systems Division, Fairfax, VA is officially commended for outstanding performance as the software developer of the Joint Program Office for Biological Defense's Joint Biological Point Detection System (JBPDS), from February 1998 through April 2000. RTI has met all of the requirements, while on cost and ahead of schedule. RTI's high level of expertise, ability to make the latest technology work, commitment to meeting Government requirements, and emphasis on customer satisfaction have played a major role in ensuring the success of the JBPDS program. RTI's dedication to excellence reflects a great credit upon RTI and the U.S. Department of Defense.
